Glen Dimplex Home Appliances operate a continual product improvement policy. Therefore we reserve the right to change the specifications for any product without notice. All dimensions are approximate. This brochure should not replace the installation manual that gives more detailed information. All cooking appliances featured within the brochure are CE marked as complying with the relevant appliance directives, produced under surveillance to BS EN ISO9000 series. Appliances can become very hot and retain their heat for a long period of time after use. Children should be supervised at all times and should not be allowed to touch the hot surfaces or be in the vicinity when in use or until the appliance has cooled. All technical data is taken under laboratory conditions and may vary in use. Ratings are quoted at 230V (also suitable for 220V and 240V). The statutory rights of the consumer are not affected. Induction hob: the functions of the hob comply with applicable standards on electro-magnetic interference. Your induction cooking hob thus complies fully with the statutory requirements (Directive 89/336/EEC). Every reasonable care has been taken to ensure that descriptions in brochures are accurate. However, specifications may change without prior notice. Please contact customer services before ordering. All electrical appliances must be installed by a qualified electrician using suitable electrical connections.
