

STOVES

— DELUXE —

THE RANGE COOKING COLLECTION

MASTER EVERY MEAL WITH THE STOVES DELUXE COLLECTION

The unsinkable soufflé. The perfectly pink steak you pride yourself on. The compliments that come after another on-point dinner party. That's what today's home cook really wants – consistently delicious results.

Following years of in-depth research and development, Stoves Deluxe has evolved – introducing new technology fresh for 2023. This cutting-edge collection of range cookers combines luxury style with contemporary innovation, bringing outstanding performance to your kitchen.

Whether you're looking for the only range cooker with four ovens, stylish and easier to clean gas-through-glass hotplates, or a larger grilling area for those perfect thick chops, every element has been designed to create dishes you can always trust for taste and quality, including two ground-breaking new features.

Where traditional oven dials leave space for temperature fluctuation, **TrueTemp** digital thermostat puts you in control right down to the degree – achieving perfect results, time after time.

Even bolder, the **FreedomFLEX™** true zoneless induction system reinvents the hob as you know it. A single full-surface cooking area gives you the flexibility, capacity and freedom to position any pan of any shape or size –anywhere!

With Stoves Deluxe, you'll never plate anything less than perfection.

Engineered in Prescot since 1920.

CHOOSE YOUR PERFECT RANGE COOKER

1. CHOOSE YOUR STYLE:

At Stoves, we appreciate that every kitchen is different. That's why we offer distinct styles of range cooker to suit your individual taste.

From the ultra-contemporary to the more traditional, our range cookers are styled differently but all offer the same ground-breaking features designed to help you prepare the perfect meal, time and time again.

RICHMOND DELUXE

Our modern take on a traditional looking range cooker, designed to fit any style of kitchen.

COLOURS:

- Black
- Classic Cream
- Country Blue
- Chilli Red
- Icy White
- Kingfisher Teal
- Mojito Mint
- Midnight Blue
- Porcini Mushroom
- Thunder Blue
- Anthracite Grey

STERLING DELUXE

A truly contemporary range cooker, perfectly at home in any modern kitchen

COLOURS:

● Black ● Stainless Steel

PRECISION DELUXE

A modern innovative design which includes Umbra Glass™; black glass that becomes transparent when cooking.

COLOURS:

● Black ● Stainless Steel

2. CHOOSE YOUR FUEL:

DUAL FUEL

Stoves is the only brand to offer you both a traditional dual fuel hotplate and an innovative Gas-Through-Glass option. See page 13.

ELECTRIC INDUCTION

Induction works by heating the pan rather than the hob, providing a smarter, faster, safer and greener way to cook. Stoves is the only brand to offer 3 distinct styles of induction. See page 8.

3. CHOOSE YOUR SIZE:

Stoves Range Cookers are available in a number of widths.

900mm

1000mm

1100mm

CO-ORDINATING HOODS

We have a range of co-ordinating Richmond and Sterling hoods to complete your kitchen.

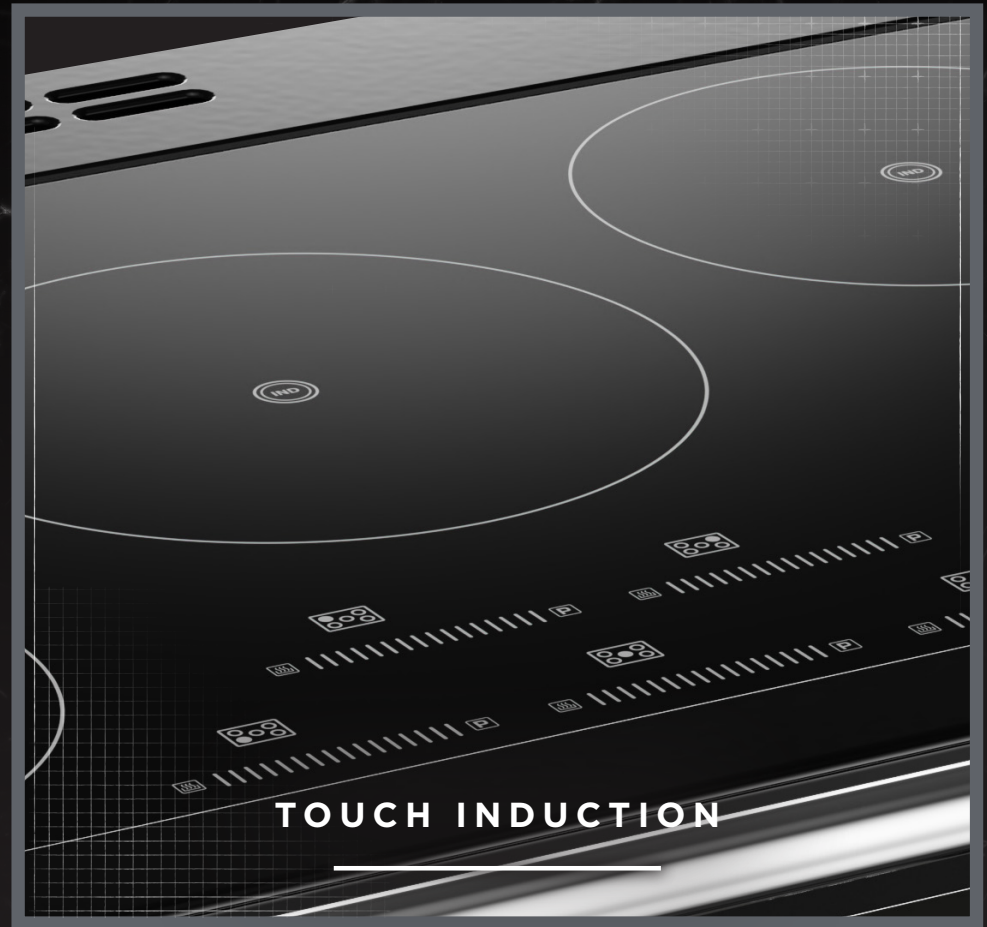

All cooker hoods feature three fan speeds, timed boost setting, market leading noise levels and extraction rates and are all A energy rated.

VISIT [STOVES.CO.UK](https://www.stoves.co.uk)
FOR MORE DETAILS

**STOVES IS THE ONLY BRAND TO OFFER THE CHOICE
OF 3 INDUCTION SYSTEMS, PUTTING YOU IN CONTROL:**

Prefer control knobs for a traditional look and feel?
Here's all of the benefits of induction technology in a
familiar system, which also features bridgeable zones.

Prefer a sleeker look controlled from above?
Modern slider controls on the hotplate put you
in control at the touch of a button.

FREEDOMFLEX™ TRUE ZONELESS INDUCTION SYSTEM

A World-first on a range cooker - We've removed the rings that restrict you to give you a full surface cooking area where you can place up to 6 pans. Any pan, any shape, anywhere on the hotplate! The intelligent management system will even remember the power level of any pan you move to another position, automatically allowing you to carry on cooking. There are also useful pre-programmed settings for melting chocolate, simmering, and keeping food warm. Genius!

**PLUS MARKET-LEADING FEATURE TECHNOLOGY
AVAILABLE ACROSS THE COLLECTION**

TRUETEMP DIGITAL THERMOSTAT

Where traditional oven dials leave space for temperature fluctuation, TrueTemp digital thermostat puts you in control right down to the degree. Your chosen temperature is clearly displayed so you can achieve perfect results time after time. Also introducing our rapid pre-heat function which will automatically engage as soon as you turn on the main oven, reaching the required temperature over 40% faster* allowing you to start creating quicker!

(*compared to previous Stoves range cookers)

Stoves is the only brand to offer 4 working ovens across the Deluxe collection. The main oven is multifunction with 13 functions to choose from including Equiflow™ fanned cooking for perfectly consistent results, bread proving, and a tempting pizza setting. There's also a separate designated Equiflow™ fanned oven, a very useful slow cook oven, and an additional conventional oven when you need the flexibility of extra capacity.

Even on our 3-cavity, 900mm models there's the option to create an additional oven when you need it! Stoves is the only brand that offers you the innovative Proflex™ Splitter which transforms the tall Titan™ oven into two ovens that can be individually controlled at different temperatures!

An innovative accessory that adds moisture and flavour to your dish, turning every meal into a masterpiece. Simply adding water, stock or infused spices to the pot serves to steam food from the inside, optimising the taste and texture. All this flavour comes quickly with an average reduction in cooking time of 20%*. Also includes skewers for making succulent kebabs

Effortlessly smooth gliding double extension telescopic shelves slide out fully to allow safe and easy access to food, without having to reach into the oven. Even if you're using large pans or heavy dishes you can simply baste, turn and season your food with ease. Fully adjustable, they can be moved to whichever shelf position you need.

(*Based on cooking a large 2.5kg roast chicken, Liverpool University May 2018)

The deep full width grill pan lets you make the most of the large cooking area. The **Maxi-Grill™** comes with Pro-trac double-extension telescopic sliders providing safe and easy access to food, without having to reach inside.

This smooth ceramic glass surface gives a stylish and elegant look whilst keeping all the benefits of cooking on gas. This hob includes powerful 5kW PowerWok Plus™ burners for rapid and intense heat. Cook with confidence and wipe clean with ease.

PLUS SO MUCH MORE....

Our two 5kW PowerWok Plus™ burners with rapid and intense heat are perfect for your favourite stir fry recipe. Providing even heat over a large area, they're not only ideal for wok-cooking, but for high speed cooking with any large pan.

**On 1000mm and 1100mm Gas-through-glass models only.*

Provides even heat over a large area, it's not only ideal for wok cooking but for high speed cooking with any large pan.

ADDITIONAL FEATURES

EQUIFLOW™

The Equiflow™ fan oven evenly distributes heat around the full cavity. This naturally results in controlled, consistent cooking.

PERMACOAT PAINT™

Long-lasting, heat resistant paint, as used on the London Shard, that keeps your cooker looking newer for longer.

MAXI-CLOCK™

A large programmable clock and timer, with an easy to read white LED display and simple touch control screen.

UNI-CAST FRAME™

The Uni-Cast range cooker frame is made from a single piece of robust cast steel.

PAN GLIDE™

Unique raised cast iron pan supports allow pans to glide across the top of the cooker with ease and stability.

RICHMOND DELUXE
